1ClickZoom - it's all about you The magnifier program for your computer can make you very productive. Or it can make you very frustrated. Let's just say that it is better to use the built-in one. 1ClickZoom is small and easy to run. It remembers the desktop layout just like the built-in one. However, it also lets you zoom in without crushing the icons in your desktop. You can also zoom out and continue with your work. 1ClickZoom is the magnifier for you 1ClickZoom has become a very common stand-alone desktop magnification application in use. But it has always had one big advantage over the built-in one. 1ClickZoom lets you zoom in or out without loading a new program or asking for your permission. 1ClickZoom has evolved into a much more feature rich application that makes life even easier. Key Features: 1. Let's you use any program on the screen as you zoom in or out. 2. Invokes the built-in Windows screen magnifier program (magnifier.exe) so that operation during magnification is compatible with the wide variety of programs around. 3. Remembers the desktop layout just like the built-in one. 4. Large screen support that avoids the need to scroll. 5. Run without loading a new program or asking for permission. 6. Allows you to zoom in or out without loading a new program. 7. Remembers the desktop layout just like the built-in one. 8. Makes text bigger or smaller without affecting the icon. 9. Scrollbars disappear when the magnification is turned off. 10. Scales multiple items without moving them around. 11. Invokes the built-in Windows screen magnifier program (magnifier.exe) so that operation during magnification is compatible with the wide variety of programs around. 12. Reduces magnification on application icons that support it. 13. Supports multiple screen resolutions. 14. Clear when magnification is turned off. 15. Remembers the desktop layout just like the built-in one. 16. Reduces magnification on application icons that support it. 17. Supports multiple screen resolutions. 18. Remembers the desktop layout just like the built-in one. 19. Reduces magnification on application icons that support it. 20. Supports multiple screen resolutions. 21. Automatically turns off after a period of inactivity. 45cee15e9a
