Cabinet Vision has been delivering the highest quality, cutting-edge solutions to the inspection and certification industry for nearly a quarter of a century. With over 20 million inspections a year, Cabinet Vision provides technical support, custom inspections, web-based and mobile solutions, field support and training for more than 50,000 customers around the globe. Today, we celebrate our 25th anniversary. At Cabinet Vision, we are focused on being the preeminent provider of customized solutions and we stand behind our commitment to delivering the highest quality solutions to the inspection and certification industry. During a recent visit to the Head Office, the CEO and CTO of Cabinet Vision took us behind the scenes and showed us what we can expect in the coming months and years. Here is what they had to say. 1. What improvements do you have planned for the next version of your product line?What are your plans for future enhancements to our cloud-based products, such as CABINET VISION? {:.tabs() } // On document ready \$(document).ready(function() { \$("".tabs").tabs(); }); 2. How will the new features of Cabinet Vision affect the applications and services available to end-users?How will CABINET VISION be affected by changes to CABINET 2013? 3. What new features and innovations are being introduced into the new product line?What are the next steps in achieving the vision and philosophy of Cabinet Vision? At Cabinet Vision, we are excited about our new features. We are always looking for new ways to simplify the way you perform your job and make it easier. We will continue to work hard to deliver cutting-edge products and outstanding services for our customers. We plan

---

Custom reports in CABINET VISION. The .rpt (Crystal Reports) files supplied with Solid and NC Center are examples of reports with variable parameters. They are designed to run in the CAVITY VISION environment. To create or modify them, you need to enable the "Show .rpt files" option in the CAVITY VISION settings. To open an .rpt file, click the File button and choose the Open option from the File menu. Follow the program steps to create and modify this file. Enter a new name for the file in the Name field. By default, the file name matches the report name. You can leave this name or enter another one. In the Type field, select Report. fffad4f19a
