20 inches, I have already installed my font on my C:\windows\fonts directory. After that i have changed the font size like below Select the font After that i have changed the font size by pressing the Ctrl+and- and then +. Then i have tried to set the font size by setting the style sheet. I have tried to change the font size of the selected text by pressing the Ctrl+shift+ and then +. Then i have tried to change the font size by pressing the Ctrl+plus and then +. I have tried to set the font size by pressing the Ctrl+and- and then +. I have tried to change the font size by pressing the Ctrl+and- and then +. But it doesn't work for my case. What's my problem and how can i change the font size? A: In the document you pasted, as well as in my example below, the font size is changed using the Ctrl+plus, +. In the first image, if the font size is set to 10 (font-size: 10px), and in the second image the font size is set to 14 (font-size: 14px), the font size in your chosen font is correct. Note that in my example, I am using Times New Roman, a font not in your example. I do not have your font installed on my machine, however I installed it on Windows 10, and the font size works fine. I hope this is helpful. body { font-family: Arial; } The font size is 10px. Click + to increase it. Click - to decrease it. The font size is 14px. Click + to increase it. Click - to decrease it. PS: If you are using Safari, this problem also exists. (I can't reproduce it) Set the font-size in the css of the webpage. For eg: @font-face { font-family: 'Dee-ca'; src:

Note. On the right side of the blog, "Blog Archive" is displayed. Expand it fully to see the entire list of Marathi learning posts. Learn Marathi grammar. Maragram lists the words that are included in Marathi. The right side of the blog also provides lists of words and expressions to learn. On the Maragram page, you can choose different language settings and turn on the Study mode, which will give you some simple sentences to memorize. In the same mode, you can select several words and expressions and repeat them until you remember. Learn the spelling features of . fffad4f19a
