Asana is a project management system. That means, you can take a file that you have on Google Docs and use Asana to turn that into a project management system. So, that is what I am doing with the Google sheets. That is what I will cover here. I have three-four different spreadsheets on Google Docs that I want to add to Asana. These are spreadsheets with the information that I want to keep and track in Asana. The best way to get started is to set your Asana workspace to work with a Google spreadsheet. You can find that at the bottom of the page and do that. Google Docs You can find the Google Docs here, Google Docs. First Google Sheet The first spreadsheet that I want to pull into Asana is the spreadsheet that I use to keep track of my upcoming work. That is the first spreadsheet that I want to pull into Asana. The work that I want to pull into Asana, I need a couple of columns in that spreadsheet. First column the project name

Hyperdiazoic radiation is composed of products of ionizing radiation, most of which are short-lived. Since the total dose of radiation may be very large for a hyperdiazoic plant, the consequences of a hyperdiazoic atmosphere on humans were evaluated during the atomic explosions at Bikini Atoll on the second of July 1946. The results of the Air Pollution and Radiation Effects Study of the Joint Atomic Energy Research Committee and the U.S. Navy summarized here indicate that brief exposures to the atmosphere on July 2, 1946 were not harmful. A number of radionuclides, including some that have been found in the human body, were detected. This fact must be recognized in order to evaluate the potential health hazards to those in the hyperdiazoic area on and after July 2, 1946.Cocaine addiction is a disease. Yes, you read that correctly. Cocaine addiction is a disease, which means it is an uncontrollable addiction. Cocaine addiction can have devastating consequences for the person who suffers from it, so it is important to seek help for the disease and make sure the addicted person is able to recover. What is Cocaine Addiction? Cocaine, an illegal stimulant, can be consumed orally or intravenously, and it can even be smoked. The high that comes with taking cocaine is achieved by blocking the body's ability to register pain and pleasure. Without a conscious feeling of pain or pleasure, the user feels free, comfortable and euphoric. There are people who take cocaine to perform regularly and safely, and there are those who
