If you have any questions or complaints about your purchase, please click here to contact us. Good service, good price! Good service, good price! By Ander11 from Grande Prairie, AB March 13, 2015 I recommend this item to a friend! if they need a router 3 of 3 people found this review helpful. Overall: Performance: Ease of Use: Design: Quality: Great router! Awesome router. the keypad is so easy to use. i really like this router because it is more user friendly than the other routers which uses a key pad. my kids love it as it is easier to use. i would not recommend the router because its uglier than the other wireless routers. Pros: Easy to use Easy to use Easy to use Cons: Ugly looking Ugly looking Design It takes a while for the router to connect to the internet which is not a problem for me because once its connected to the internet its so easy to get the internet to my phone and my TV Performance: The router I get for free from my carrier is terrible. The internet is very slow. Ease of Use: I really like the way the keypad works. A lot easier to use than a key pad The Router I purchased from this seller is a great router. This is a performance product with easy to use. I had a couple of problems but once they were resolved the Router performed better than any other router I've used. Very happy with this product. A++++++ 5 of 5 people found this review helpful. Overall: Performance: Ease of Use: Design: Nice Nice Design Performance Ease of Use Pros: Cons: Performance Easy to use Ease 6a5afdab4c

TurboFire VPN lets you create virtual private networks of your own in the Internet, add new protocols to the VPN, and protect your IP address by securing the Internet connection against unauthorized access. TP-LINK Router Manager allows you to configure all of the network settings of your router. At the same time, you can monitor all the network settings and receive router alerts instantly.

TD-W8121N Router Manager Description: TP-LINK has introduced the new TP-LINK WNDR4500 IP Camera. This IP camera can be used for home surveillance. It comes with built-in alarm, video storage, motion detection, storage, and the ability to connect to a television or monitor.

TP-LINK TN-LWU2128 UPS features removable batteries that protect against a power outage. This compact device is suitable for use as a UPS or for uninterruptible power supply.

TN-LWU2128 Description: The TL-WU2120 TimeServer is a wireless N router that allows Internet connection through WLAN (802.11a/b/g/n) at speeds up to 150Mbps.
