What's New In?

The Philips Intelligent Agent is an utility which will help you to keep your Philips drives up to date. Philips Intelligent Agent automatically offers the correct download for your optical device without searching through long lists. Updates are now at your fingertips! Even after releasing a device, we continue to improve our products and even add some functionality to the device. In the past, you had to visit this website from time to time to see if there was something new for your device. The Philips Intelligent Agent helps you by automatically notifying you when updates are available for your product. Can it be easier? A download dialogue box appears when you find an update for your product. You can either use the Automatic Updates option or the Manual Update option. When you choose Automatic Updates, Philips Intelligent Agent will automatically start a download for your product and immediately start updating your product. When you choose Manual Update, you get a small dialogue box where you can choose an update download from the list for your product. You can choose between Automatic, Manual or Download only. When you choose Download only, you will not be notified by e-mail. The download will be available for approximately 5 minutes. If you choose Automatic updates, you will be updated immediately and you will not need to contact Philips. Please note that you can not choose which updates will be performed. This only works for basic updates. If you do not use this Philips Intelligent Agent or if you have problems, you can ask for help from your administrator. If you have problems using the Philips Intelligent Agent, you can also ask Philips for help or contact us here. For further information about the Philips Intelligent Agent please contact your local Philips service center or your local authorized reseller. Current status of Philips Intelligent Agent: The First release of the Philips Intelligent Agent is version 1.0. With the update your Philips drives should get up to date. Updates are normally only required when there are changes to the licence agreements for the Philips software and some additional information about the Philips software. To update your Philips software, the Intelligent Agent offers the latest version and the latest information about the Philips software. This can be done with a single click. You will not need to contact Philips anymore. You will be notified about a new update as soon as it is available. We regret that there is currently no way to update the settings of the Philips Intelligent Agent. The Philips Intelligent Agent is version 1.0. With the update your Philips drives should get up to date.
