I think the Google Play store is littered with this sort of app, but many, if not most, don't seem to realize the user is looking at all of their (supposed) Steam libraries via this app, not just their GOG ones. ~~~ babe567 Ah thanks for that info. Is there any way to add an account to the launcher? I have an old account I'd like to use for the launcher. ~~~ nathanaldensr No, there's no account. You can create a Google account when you install the app, but I've never used one. ----- adamkruszewski Huge fan of how well it holds on to the modern UI without losing a bit of beauty that made Epic games so compelling in the first place. The level of detail is amazing. ----- BobPalmer The autocomplete for the GOG.com games tends to be on the slow side. Open source, I'm hoping to see a little more R&D into caching. It's a good launcher otherwise. ~~~ babe567 It's a server-side service, the GOG API doesn't have any cache. ~~~ BobPalmer Oh, sorry. I don't want to be a jerk about it. I appreciate you explaining. ----- devttyeu awesome use of typography! you guys shoulda made this look like chromecast ~~~ gok Not to sound mean, but the font looks like a unit test or some other statically generated source code. ~~~ spr

The boy's hair was splayed across the front window, which had broken out from its frame, and his face and hands were covered with blood. A nearby officer was summoned to aid the victim. "You mean, you didn't know what the red curtains were?" asked the officer. "No," replied the bystander, "But even if I did, I couldn't have stopped him." MUMBAI: Congress president Sonia Gandhi is expected to take the top spot in the Maharashtra assembly polls this month as part of the strategy to win states. Gandhi is widely expected to lead from Maharashtra, where her party is in power despite falling one percentage point short in the assembly elections in April. However, a political analyst said she could also lead from other states such as Gujarat and Rajasthan. The Bharatiya Janata Party (BJP) is set to sweep Rajasthan, and even a win in Gujarat is not out of question. BJP national president Amit Shah has been in charge of all but two assembly constituencies. The Congress is taking on the BJP by making a major push in the tribal belt in its home state. Rahul Gandhi, the party president, is due to campaign for 25 days. The BJP's attack is based on regional issues in states like Maharashtra and Gujarat, and on achievements in the NDA government like the Goods and Services Tax. The Congress counters that the BJP has lost ground in the Hindi heartland. Rahul Gandhi's moves to rope in like-minded leaders in the state are seen as a part of his strategy to bring the veteran face of the party in the assembly and the Lok Sabha elections. Heroic Games Launcher Description: Hey, just downloaded Heroic Games Launcher, released to the public 2 days ago and I have got to say its great. Its light, fast and I can't find anything to complain about. Sadly, it has one of the biggest flaws of any launcher. The fact that you have to pay to use it. It cost me 35 euros, and I will try it for a month and see if I will like it, but it feels like a great launcher but when I launch a game it's always saying. "Unable to Load Game, Please Reinstall..." I'm not sure if it's because I bought a discount code, because sometimes I launch a game, and it works the first time, but then it will do it again the following times I launch it. I don't know how to solve this problem. What can I do? Q: SQL Server Profiler complains about nonexistent row I'm using SQL Server Profiler to capture execution trace of a small transaction. When I execute my stored procedure, I get two rows in the results. The first row contains all the information I require, and the columns and rows are all correct. The row count is 2. The second row is empty, and has the value(s) 'Closing Statements' and 'Closed' for the rows 2 and 3 respectively. The row count is 1. I don't understand how the empty row appears, if the row count is 2. Any help would be appreciated. I'm using SQL Server Profiler 2008 and SQL Server 2008. A: It sounds to me like the profiler is telling you that the closing statement you're looking at isn't actually a closing statement, it just appears that way because it is recorded as having happened. Q: Lara
