Screenshot: ConceptTutor Plus can be used to incorporate various media types, including images, audio and flash video, into a cohesive learning object. Now, you can create accessible learning materials that everybody can use and enjoy. How to use: 1. Install ConceptTutor Plus: Run the ConceptTutor Plus Installer. After installing, follow the instructions on the screen to complete the setup. 2. Create ConceptTutor Plus: Click the "New ConceptTutor Plus" button to start the setup. After setup is complete, you will be prompted to create a user. 3. Create a ConceptTutor Plus Account: Choose the option "Create a ConceptTutor Plus Account". Enter your desired account information and click "Next". Fill in the details for your ConceptTutor Plus account. Tip: You can also log in to your existing account on the website, Click "Next" when you are finished. 4. Add Content: Click the "Add Content" button. Fill in the title and content for your concept. Tip: To ensure that you only add content to a concept for which you have created a pre-requisite, there are two ways to control which concepts can be imported: Option 1: Use the "Import Content from ConceptTutor Plus" tab. Here, you can select which content from ConceptTutor Plus is used as a prerequisite. To add content, click the "+" icon, fill in the title and content, and click "Add". Option 2: Specify the prerequisite and the concept that you want to import content into by using the "Import Content from ConceptTutor Plus" tab. 5. Import ConceptTutor Plus Settings: Select the pre-requisites you wish to use. The pre-requisite icons that appear on the left side of the screen are used to specify the pre-requisite(s). Click the "Import ConceptTutor Plus Settings" button. Click the "Import ConceptTutor Plus Settings" button. Click the "Finish" button. Click the "Finish" button. Note: In the drop-down list, click "+" to add a pre-requisite. Click "Delete" to delete a pre-requisite. 6. Upload

System Requirements For ConceptTutor Plus:

Minimum: Windows 7 Intel Pentium Dual Core E3-1200 4 GB RAM 1366x768 Display DirectX 9 Compatible GPU Recommended: Intel Core i3 - 2.4Ghz DirectX 10 Compatible GPU Why? This is an interesting game, it's a serious FPS shooter that really gets to the core of what's fun and what it takes to be a
