Field of the Invention The present invention relates to an image forming apparatus and an image forming method. 2. Description of the Related Art Generally, an electrostatic latent image forming apparatus, such as a digital copying machine and an image printing apparatus, including an image carrying member (hereinafter, referred to as a "photosensitive drum") on which an electrostatic latent image is formed and a developing device having a developing roller is arranged such that a latent image formed on the photosensitive drum is visualized with toner, whereby a toner image is formed. In the developing device, a developing roller, which is provided with a development member having a magnet and a developing sleeve, is rotated while coming into contact with the photosensitive drum, and the toner held on the developing sleeve is attached onto the latent image on the photosensitive drum by a development bias voltage applied to the developing sleeve. Thereby, the electrostatic latent image is visualized. If toner is not held on the developing sleeve due to variations in the resistance of the developing sleeve and in the voltage applied to the developing sleeve, the quality of a toner image formed is adversely influenced. It's a very cool tool which can help you to find out how many of your followers use Google+. Click on the link to sign in to Google+ on your Google account address. After clicking on it, you need to know the URL of the page. If you take a look at the URL address you will see three numbers in it. It means that you have found the Google+ page of my account. The numbers in that URL address will look like this: Profile: Page URL. But there is a little restriction. If there is an "@" symbol in the URL, then there will be no need to know the number. So, just copy the URL address and paste it into the URL of the website. And the result will appear. If you want to know more about my profile or my page, just press the "next" button from the left of the website. If you want to see how many followers I have, then you just need to click on the button "Followers". If you want to know how
