Search form Zoomable Wallpapers October 21, 2015 One of the greatest things about a smartphone is the fact that we can download hundreds of new applications and personalize our devices to make them our very own. This is where the Z-Wallpapers come in. At first, there were just a few of them but we could hardly wait to see more and more designs are being added every day. We do not only love the fact that Z-Wallpapers come in a wide variety of themes and categories, but also that there are so many ways to access them and use them on your device. There are four main ways to download Z-Wallpapers: 1. By searching for it on Google 2. By using Z-Wallpapers.org 3. By downloading them from their official website (coming soon) 4. By using the free Z-Wallpapers app that you can download here At this point, most of the wallpaper designs are in the category of landscape or square wallpapers, but the creators keep adding new wallpapers to the collection so don't forget to check it out again and again. Some of the categories that are currently active are:Q: Edit another question to change tagging I just came across this question on Meta Stack Exchange: Should we tag questions with [Minecraft] instead of [minecraft]? After looking over the question it seems like the OP is asking for the tagging to be changed from minecraft to Minecraft, which is a valid change as you can't run Minecraft on most platforms. The problem is that the question was tagged
