Part One features the Challenge and Thrill of Pre-College Mathematics- Math Games, Activities, and Flashcards. Part Two is the In-Class Math Game. It includes math games for math partners to play at school. Part Three is the Math-Along Game and Swap System. Math-along games allow you to use the concepts you are learning in math practice games, and have student partner take turns filling in the math worksheets. This is a three part book perfect for anyone looking to challenge and thrill their students. Use the school term as a new calendar from which to measure the students' academic progress. In addition, students can connect to the month level as an educational tool that helps them to learn about each phase of the language in one unit. The consistent, month-level system helps students know what they need to know to ensure their academic progress at the end of the school term. This PDF is encoded to be printed on multiple pages to enable students to reference and record their answers. Students will be able to easily mark the pages they have completed and can then compile the information to compare with their progress
